

## Microplastics 2022

Congressi Stefano Franscini, Monte Verità, Ascona – 6-1 November, 2022

### Information for presenters

#### Oral presentations

**Time slot of 30 minutes** ([invited speakers](#)): plan for 20 to 25 minutes presentation and the remaining time for questions.

**Time slot of 20 minutes** (talks selected from the submitted abstracts): plan for 15 minutes presentation and 5 minutes of questions.

The lecture room is equipped with audio/video system and one Windows and one Mac laptop. Use of your own computer is also possible if strictly necessary (but we recommend to test it in advance). Power point or pdf slideshows will work on both the available computers. You are invited to upload your presentation on the day when your talk is scheduled, before the session begins. Members of our committee will be around to help you. We do not need to receive your presentation in advance.

#### Posters

**Please print your poster in advance. There are no poster printing facilities at Monte Verità.**

Please print your poster in a maximum A0 format (ca. 118x84 cm); both landscape and portrait format in A0 will fit the boards.

All posters can stay on display in the poster room from Monday until Thursday evening.

Two poster sessions are planned, one on Monday and one on Thursday, both after lunch, from 14:00 to 16:00. We do not assign a specific session to each poster. Poster presenters are welcome to stand by their poster in both sessions to discuss with visitors and also spend some time, if they so wish, to visit other posters.

Shortly before the conference starts, we will add numbers to the posters list currently available on the [program](#), so that poster authors can locate the correct board to display their poster in the poster room. Pins to fix the posters on the boards will be provided.

Please take your poster with you when you leave. Posters left at the venue after the group's departure will be discarded.
